## **GENERAL INFORMATION**

***Please note:***

***The consideration is to be paid at the offices of  
Penrith Farmers' & Kidd's Plc immediately after the auction***

The grazier is responsible for uprooting and destroying all thistles, nettles and other noxious weeds during the months of June and July and keeping the land clear of moles.

The grazier takes the walls, fences and gates as being in good tenantable order and repair and will make good any damage done by the grazier or his stock to the walls, fences and gates during the term.

The grazier is not allowed any horses, bulls, diseased, dykebreak or vicious animals on the land during the term and will not do anything to cause the land to cease to be in Good Agricultural and Environmental Condition and to comply with the Statutory Management Requirements.

The above conditions are only a small extract from the general conditions on a Grazing Agreement. The graziers should make themselves aware of all the conditions, which are available for inspection at the Agents office.

Due to Nitrate Vulnerable Zone Regulations, if graziers seek to apply more fertilisers to any of the following Lots, they must get the owners' prior consent first and then keep accurate records

In all cases the Landowner will continue to claim the land/entitlements under the Basic Payment Scheme.
